<u>Consolidated Financial Highlights</u>

While the company reported strong operating performance with an estimated current tax expense of ₹5 Cr in Q2 FY27, a notional loss was recognised under Ind AS reporting, which is primarily due to Ind AS accounting adjustments. Under Ind AS, IndiQube reported an EBITDA of ₹297 Cr with EBITDA margin of 63% and a net loss of ₹6 Cr.

This variance between Ind AS and IGAAP-equivalent reporting arises mainly from non-cash accounting impacts, primarily on account of Ind AS 116, such as;

- Depreciation on Right-of-Use (ROU) assets, and
- Interest on lease liabilities.

These adjustments are purely accounting in nature and do not affect the company's underlying operating strength. IndiQube's core business continues to demonstrate robust profitability and cash generation. *(Refer to the Investor Presentation for a detailed reconciliation between Ind AS and IGAAP equivalent financials.)*
